**WARNINGS**

**TREKKING IN THE PARK**

According to the National Park regulations you are not allowed to do trekking in the park without guidance by the hotel interpreter or National Park Ranger. We are responsible for your safety within our area so please kindly help us to prevent unnecessary accidents and emergency search and rescue operations. If you wish to walk or run please stay on our main roads.

**SPIDERS, SNAKES AND SCORPIONS**

Yes these creatures are part of our environment but will most probably not harm you if not threatened.

If you must walk around at night please always use A TORCH.

If you do come across a snake please do not try to catch it! Rather report this to the Housekeeping staff or to Front Office.

**SWIMMING AT THE BEACH AND CORAL CONSERVATION**

Entering the water in front of our Beach Club can be difficult due to shallow waters and rocks. Watch out also for Sea Urchins between the corals. Those animals are not venomous but painful. Better use our Jetty on the right hand of the Beach for easy access into the water. In order to preserve our corals around the reef don't touch or stand on it. Damages to those delicate animals will take years to recover. If you need any assistance or additional information please kindly contact our watersport staff.

**MONKEYS ARE VERY CUTE AND CAN BE ENTERTAINING FOR YOUNG AND OLD, BUT PLEASE DO NOT FEED THEM.**

Remember by feeding them you are signing their death warrant, as they become aggressive. By feeding these animals you do not only aggravate the situation but you also make these animals lazy and they become dependent on this food supply.
